

Fat, Oil & Grease (F.O.G.) Ordinance Reporting of Testing and Certification

Ordinance (www.canton-mi.org) Chapter 74 Utilities, Article V, Installation and Maintenance of Grease Interceptors; Discharge Prohibitions

Food service facilities must have their 'grease trap' properly inspected or cleaned on a regular basis. Businesses who do not submit maintenance documentation are issued a notice of violation to comply. If the business does not comply with this notice and submit maintenance documentation, a ticket will be issued showing that business is in violation of the ordinance. That person or entity found to have violated this article will be responsible for all fines, attorney fees, court costs and other expenses related to enforcement activities or litigation against the person or entity for violating this article.

Submit maintenance documentation by the first day of the following months:

FEBRUARY	AUGUST
APRIL	OCTOBER
JUNE	DECEMBER

*Please note that the requirement of a **bi-monthly** report is not an indication of when grease traps require cleaning, some may require cleaning more often depending on the function and level of maintenance of individual systems. A **bi-monthly Inspection Sheet/Maintenance Log** is required regardless of the business's cleaning schedule, which is enclosed.*

Maintenance testing and certification documentation:

*Indicate the company name, technician's name, and the date(s) that the grease interceptor at your location was inspected and cleaned. Failure to provide the **bi-monthly** certifications when required shall constitute a violation of the ordinance.*

Maintenance testing and certification documentation can be mailed, faxed or emailed to :

Canton Township Public Works Division
4847 S. Sheldon Road, Canton, MI 48188
Fax #: **734/397-8066**
Email: municipalservices@canton-mi.org

Charter Township of Canton
 Public Works Division
